Appendix B

Semi-structured Interview Tool

Pediatric Physical Therapy Simulation Study

Interview Tool

1. What was your experience as you participated in the interprofessional simulation?

2. Did the experience have an impact on your perception of interprofessionalism in the clinical environment? How?

3. Did the experience have an impact on your perception of pediatric physical therapy? If so, what did you learn about pediatric physical therapy?

4. Have you experienced simulations before? If so, how was this experience similar or different?
